perfect blend of style and aggression, giving the riders the fit and finish they need to perform with the highest level of confidence

ALS-02 HELMET

DOT and ECE approved

Advanced weave composite construction

ALS Original Air Line system for ventilation front to back.

Moisture wicking interior liner

Removable cheek-pad and head liner.

Streamline design, least amount of air turbulence.

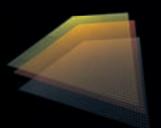

Wide and tall eye port

۸LS

AIR LINE SYSTEM VENTING

JT's next-generation ALS helmet venting technology uses eleven intake and exit vents – and multiple air channels within the EPS liner – to move tremendous amounts of air into, through and out of the helmet, especially in the lower rear section, an area notoriously hard to cool

CONSTRUCTION

HAND-LAID FIBERGLASS SHELL

Fiberglass is an optimal shell material due to its energy absorbing properties. Combined with our molded EPS liner, the fiberglass shell gives the ALS-02 maximum impact protection

COMFORT LINER

ANATOMICAL CHEEK PADS

Each cheek pad is molded to the shape of a face for optimal comfort and fit

REMOVABLE, WASHABLE COMFORT LINER

Hydra-Wick comfort liner wicks moisture and sweat from the head and is easily removable for washing.

TTTOTTT

For 2013 JT Racing brings you the all-new Evolve Collection, available in two categories, Lite and ProTek, both offered in multiple graphics and colorways. Evolve Lite, constructed of super stretch, ultra light materials, gives riders a featherweight feel while providing enhanced mobility. With the future of our sport in mind, JT Racing now offers our Evolve Lite Collection to the youth rider. Evolve ProTek, engineered to suit the most aggressive riding style and rigorous conditions, sets a new standard in high-end Motocross apparel.

EVOLVE PROTEK

Evolve ProTek raises the bar in motocross racewear technology. With multi panel construction and an innovative integrated hip pad system, the ProTek collection offers the most superior fit and function in its class. ProTek Racewear is available in Race and Fader Graphics, with vented and non-vented options.

EVOLVE PROTEK JERSEY

- Moisture wicking polyester fabrics
- Mesh collar for improved fit and comfort
- Athletic cut for a more tailored fit
- No fade sublimated graphics
- Tagless neck label
- Multi paneled construction for rider comfort
- Large mesh panels for enhanced airflow
- Athletic cuff with stretch gusset to prevent bunching
- Drop tail at back helps keep jersey tucked in pants
- Articulated padded elbows

EVOLVE PROTEK PAN

- Ergonomic pre-curved race ready fit
- Integrated hip padding
- 900D polyester main body material for superior durability
- Strategically placed spandex materials for increased flexibility
- Intake scoops for increased airflow
- Quilted lower knee padding for extra comfort
- Ratchet waist closure
- Breathable 3/4 length mesh line
- Accordion knee to accommodate modern knee braces
- Silicone inner waist to help keep jersey tucked in
- TPR thigh, knee and rear yoke protection Premium leather backed with Kevlar® for superior heat shield protection
